Dear Dr. Lions

RE: WATFOR under UNIX Operating System

In J.W. Welch's letter of September 26 (replying to your letter of September 17, 1975), he advised that WATFOR did not run under the UNIX operating system. Recently, we have developed a version of WATFOR to run under this system. If you are interested in obtaining further details, please contact us.

Yours truly,

J.W. Graham
